CCC-Exempt Declaration

As we know, CCC certification is mandatory in China for defined products, and CNCA is the responsible committee for the definition of CCC application range. So please visit the website below for the latest bulletin (No. 45 of year 2014) of CNCA for CCC:

http://www.cnca.gov.cn/xxgk/ggxx/2014/201512/t20151230_44252.shtml

Part-No and description of product,

Description of product function:

The main function of SAC connectors is the connection of power and signal in industrial applications.

Reason why CCC certification is not required:

According to the annex of bulletin (No. 45 of year 2014) of CNCA, category 2, 'switches for circuit, installation protective and connection devices' and subcategory 'plugs and socket-outlets for industrial' is for products, which are in the scope of the applicable standards GB/T11918.1, GB/T11918.2 and GB/T11918.4. The GB standards equate to IEC 60309-1, IEC 60309-2 and IEC 60309-4. The SAC connectors are not in the scope of these standards. They are in the scope of IEC 61076-2-101, IEC 61076-2-104 and IEC 61076-2-105, which is not referenced in the last bulletin (No. 45 of year 2014) of CNCA for CCC application range.

So, we can have a conclusion that SAC connectors are not in CCC application range.
