

## Color Mark Photoelectric Sensor

## E3S-DC

## Color Mark Detection on Any Type of Packaging.

## Narrow Beam and Large Lens for Stable Detection of Workpieces Tilted at Various Angles.

- Detects subtle color differences.  
High luminance, three-element (RGB) LED light source for greater light intensity. Highly efficient optics technology provides high power and enables stable detection even of subtle color differences.
- Handles glossy workpieces.  
Thorough noise reduction.  
High dynamic range covers everything from black to mirror surfaces.
- IoT compatible.  
Models that support IO-Link also available.  
Sends RGB information to host with high-speed IO-Link communications.  
Optimum threshold set to reduce false detection.

For the most recent information on models that have been certified for safety standards, refer to your OMRON website.

Refer to *Safety Precautions* on page 6.

## Safety Precautions

Be sure to read the precautions for all models in the website at: <http://www.ia.omron.com/>.

### Warning Indications

<b>WARNING</b>	<b>Warning level</b> Indicates a potentially hazardous situation which, if not avoided, will result in minor or moderate injury, or may result in serious injury or death. Additionally, there may be significant property damage.
<b>Precautions for Safe Use</b>	Supplementary comments on what to do or avoid doing, to use the product safely.
<b>Precautions for Correct Use</b>	Supplementary comments on what to do or avoid doing, to prevent failure to operate, malfunction or undesirable effect on product performance.

### Precautions for Safe Use

- The following precautions must be observed to ensure safe operation of the product.
- Do not install the product in the following locations.
    - Locations subject to direct sunlight
    - Locations subject to condensation due to high humidity
    - Locations subject to corrosive gas
    - In the place where vibration or shock is directly transmitted to the product.
  - Do not use the product in environments subject to flammable or explosive gases.
  - Do not use the product in any atmosphere or environment that exceeds the ratings.
  - Do not pull on the cable with excessive strength.
  - Do not attempt to disassemble, repair, or modify the product in any way.
  - Do not use the product with the main unit damaged.
  - Be sure that before making supply the supply voltage is less than the maximum rated supply voltage (30 VDC).
  - Do not apply any load exceeding the ratings.
  - Do not short the load. Otherwise damage or fire may result.
  - Connect the load correctly.
  - Do not use the product under a chemical or an oil environment without prior evaluation.
  - Though this is type IP67, do not use in the water, rain or outdoors.
  - Do not use thinner, alcohol, or other organic solvents. Otherwise, the optical properties and degree of protection may be degraded.
  - When disposing of the product, treat it as industrial waste.
  - These Sensors are certificated for the UL standard on the assumption of usage in a Class 2 circuit. Use them with Class 2 power supplies in the United States or Canada. Use the OMRON XS2F-D4-series or XS5F-D4-series Cables. Cables that have wires less than AWG24 (0.2 mm<sup>2</sup>) are for connection to terminal blocks and are not for field splicing. External overcurrent protection of 1 A for AWG26, 2 A for AWG24, or 3 A for AWG22 wire must be provided for cable protection.

### Meaning of Product Safety Symbols

	<b>General prohibition</b> Indicates the instructions of unspecified prohibited action.
	<b>Caution, explosion</b> Indicates the possibility of explosion under specific conditions.
	<b>Caution, fire</b> Indicates the possibility of fire under specific conditions.
	<b>General caution</b> Indicates unspecified general alert.

### **WARNING**

- This product is not designed or rated for ensuring safety of persons either directly or indirectly. Do not use it for such purpose.**
- 
- Never use the product with an AC power supply. Otherwise, explosion may result.**
- 
- Do not use the product with voltage in excess of the rated voltage. Excess voltage may result in malfunction or fire.**
- 
- Be sure to tighten the external lens until it reaches the chassis.**

### Precautions for Correct Use

- Note that the water-resistant function is impaired if installing the Photoelectric Sensor by hitting it with a hammer and so on.
- Be sure to tighten the external lens until it reaches the chassis.
- If the Sensor wiring is placed in the same conduits or ducts as high-voltage or high-power lines, inductive noise may cause malfunction or damage. Wire the cables separately or use a shielded cable.
- To extend a cable in the standard I/O mode, use a cable of 0.3 mm<sup>2</sup> or more and keep the length 100 m or less. Keep the length 20 m or less if using the Sensor in the IO-Link mode.
- Apply a screw tightening torque of 2.0 N·m or less.
- If a commercial switching regulator is used, ground the FG (frame ground) terminal.
- The Sensor will be able to detect objects 100 ms after the power supply is tuned ON. Start using the Sensor 100 ms or more after turning ON the power supply. If the load and the Sensor are connected to separate power supplies, be sure to turn ON the Sensor first.
- Do not press the button with anything sharp such as a screwdriver because it might be damaged.
- Output pulses may occur when the power supply is turned OFF. We recommend that you turn OFF the power supply to the load or load line first.

# SCATTERGOOD & JOHNSON LTD

ELECTRICAL ENGINEERING & FLUID CONTROL DISTRIBUTORS

Est.1899

At Scattergood & Johnson Ltd, we pride ourselves on being a technical distributor to specialist industries.

Working with a range of quality product suppliers across a number of specialist markets, we are not your average 'box shifter' - we are your technical and supply chain partner.

We fully support every product we sell - for free! Our internal team and external sales engineers can answer any product or application question, no matter the complexity.

Backing up this technical ability is a range of 50,000+ products available from stock for nationwide next day delivery (same day if required!), or you can collect what you need from any of our trade counters around the UK.
